### PAST PERFORMANCE

VTE has supported the defense and federal agency community under various requirements over its history with a keen focus on project and personnel management, and expertise in contract administration. VTE has an extensive background of security operations, which began in 2005, managing email, construction, and support contracts. Our capability grew and developed rapidly to assess, analyze, and manage risk for private sector partners, and now, encompasses providing multi-disciplined services to various Federal Agencies.

### PROTECTIVE SERVICES

Under competitive and sole source negotiated 8(a), Total Small Business and Full & Open requirements, VTE has provided unparalleled physical security services to multiple governmental agencies and private industry partners since 2005. VTE provides over 700 armed and unarmed Protective Security Officers (PSO) to protect over 150 facilities in five states, including SECRET and TOP SECRET cleared personnel. Our comprehensive management, extensive quality assurance and controls, and innovative use of technologies enhance service delivery and ensures the safety and security of our nation's assets against any risk through our Joint Venture (VT-SG1, LLC)

**“One of the best contractors I’ve ever worked with. Quick, decisive, and proactive to manage personnel. VendTech is always well-informed of site activities.” - Bric Lewis, DoD/USAR COTR**

**“Very proactive by requesting quarterly meetings with the CO and COR to ensure services are acceptable and looking for new ways to improve and exceed customer requirements. Given what I know today about their (VTE) ability to execute what they promised, I would award them, today, given I had a choice.” - Adam Reynoso, DHS/FPS Contract Specialist**

### SECURITY/NETWORK SYSTEM & ELECTRICAL CONTRACTING

Since 2010, VTE has managed DoD surveillance and security systems. Our IMI2R™ solution supports critical systems through the provision of electronics specialists supporting systems configuration and design, installation, maintenance, inspection, integration, and repair/replacement of Government equipment. Our consulting support includes research and analysis of best-in-class systems for deployment in public purchasing and inventory and account management for entire security/network systems. Our ability to serve the immediate needs of our customers and clients ensures a total security solution.

## FACILITY, ADMINISTRATIVE & MANAGEMENT SUPPORT SERVICES

VTE aligns its mission to support the critical functions of each agency's day-to-day operations. Ensuring program efficiency, project execution, and providing forward-thinking solutions, we enable the Government, Commercial, and Corporate clients to realize the broader mission objective. Our program management in support of that mission requires organizational excellence, capability, and competence. We deploy expertise in financial planning, billing, and record keeping, personnel management, and quality assurance to provide a best-value to any partner.
